

National Institute of Technology, Rourkela
DCCN Lab (CS3072)
6th Semester – 2026 Spring Sem

Evaluation Scheme:-

Day to Day Evaluation: 50 Marks

Viva : 20 Marks

Quiz: 30 Marks

Instructions for the Lab

- A. If a student is absent on the day of evaluation, will be awarded ZERO for that evaluation.
 - B. Turn off your systems before leaving lab. Do not use mobile phone during lab hours.
-

Lab 6

Objective: Implementation of AQM algorithms: Drop-tail, RED, and Adaptive RED.

Q1. Consider the following network scenario given in Figure-1. Implement the AQM algorithms: Drop-tail, RED, and Adaptive RED. Plot the graph for instantaneous queue size of RED vs Adaptive RED. Consider the Bandwidth and propagation delay as given in Figure-1. There are four flow of connection: 1. S₀ to D₀ 2. S₁ to D₁ 3. S₂ to D₂ 4. S₃ to D₃. The AQM algorithms: Drop-tail / RED/ Adaptive RED are implemented at bottleneck link R₁R₂.
